Project - 1
Ordering-Pizza-Food website
(React.js, UseContext, UseReduce,Tailwind CSS)

- Ordering a Pizza Online: Practicing My Skills in Real-World Projects
- I developed an online pizza ordering app using Router, Redux, reducers, context API, JSON, Tailwind CSS, and custom hooks. This project helped me apply and enhance my skills in real-world scenarios.
- I built an online pizza ordering app with geolocation API to get the user's current location.

Project - 2
World Wise Web Application
(React.js,Redux,CustomHook,Rounder, Lazy Loading)

- Tracking your trip locations can help me practice my skills in advanced React concepts.
- In this project, I'm utilizing Router v6 for navigation and lazy loading for performance.
- Additionally, I'm employing custom hooks for reusable logic, integrating a map API for visualization, and utilizing JSON Server for object management, which includes update and delete functionalities.
