CGPA - 7.7

CERTIFICATION

Node.js, Express, MongoDB- Udemy
By - **Jonas Schmedtmann**
Python Programming -NPTL IITM
By - **Prof.Devendra Jalihal**

PROFILE SUMMARY

As a fresher MERN stack developer, I bring a solid foundation in Frontend with proficiency in React.js. Passionate about creating engaging user experiences, I have hands-on experience with MongoDB, Express.js, and Node.js. Eager to contribute fresh perspectives to innovative web projects.

PROJECT

Project - 1

TravelSync - Travel Booking Web App
(Pug, Nodejs, Express, MongoDB, RESTApi)

- Frontend with Pug Templates: Utilize Pug to dynamically generate HTML, providing a responsive interface where travelers can search for tour guides, explore destinations, and book tours.
- Backend with Node.js and Express:Build a backend to manage user authentication, session handling, and bookings, ensuring smooth transactions and page rendering.
- MongoDB Schema Design:Use embedded documents for fast access (e.g., tour details, reviews) and referenced documents for flexibility (e.g., user profiles, guide info), ensuring performance and scalability.

Project - 2

Personal Portfolio
(React.js, Bootstarp and Thrid Party Components)

- Responsive Layout: Use Bootstrap to make your portfolio look good on all devices, from phones to desktops.
- Interactive Features: Use React.js to create a smooth, interactive experience for visitors to your portfolio.
- Using Third Party Library: Using third-party libraries and components to build complex UI designs and create the best user interactions for my portfolio.

SOFT SKILLS

- **Communication:** Communicates clearly to work well with others.
- **Teamwork:** Works well in a team and has contributed to group projects.
- **Adaptability:** Learns quickly and adapts to new situations easily.
